## network overview

### Services Network

The Services Network is responsible for delivering a wide range of health and social support services in Melbourne's CBD, and northern and western suburbs.

## position overview and purpose

The Podiatrist is responsible for providing quality community-based Podiatry services to individuals and groups within our community. This includes assessment, diagnosis, and treatment of clients with foot-related / lower limb disorders. The Podiatrist will have the knowledge and ability to treat foot-related conditions resulting from diabetes, peripheral vascular disease, and other high-risk foot complications.

The Podiatrist will work across the multidisciplinary teams to provide holistic, client-centred, and coordinated healthcare. Using a strengths-based approach cohealth the Podiatrist will collaborate with clients, their carers, and other service providers, to develop meaningful care plans.

Drawing on the findings of the podiatry assessment and the care planning process, treatment is provided utilising appropriate evidenced-based interventions. This includes a focus on educating and empowering clients to adopt self-management strategies to improve their health which is underpinned by health literacy principles.

This podiatrist will work across all teams and sites to provide flexible service delivery and ensure continuity of care through covering planned and unplanned staff absences. The position direction and staffing allocation is overseen by the clinical lead for Podiatry who will allocate location based on need and risk assessments. In addition to clinical tasks, this podiatrist is responsible for participating in diary management, and client bookings as required.
